How can we find him ^{when he is dead in the most quiet season} ~~who has not been seen~~ that the King before
of the Chinese officer has brought them into trouble. They are
those who blame absurd upon us who being ignorant of the law
purposes of the country & but partially acquainted with its
Customs, & desires kept in great absolute restraint, are
unable to compel the Mandarins to even fairly & have a reason.

~~They have started on land~~

If we had a ^{mynd} ~~quarry~~ any on sailing should we
not be glad to give him up to just punishment - it is cruel to
or leave a creature who would think the murderers &
find such offer it is highly important to the service
on ship. All all offenders be punished.

God bless them &

Comp'd Chamberlain to send this & take out or alter as he
the country. unwilling to do that because he that you
regard is not me able the will to decide justly. To abandon
what appears to you right (it would be disrespected) /
a credit which we pay you by a return of
& contrary the Church of England & Remitt me as well as he
ordered by the Government who would not any honorable conception rather
the perfect the goodness of the Government
