

A system of dissimulous conduct of
 fact in action & word. When I first saw him
 2 or 3 ~~days~~ ^{days ago} I began expressing to him how much
 I had been disappointed in not being able
 to accomplish any of my objects relative
 to the language or how extremely
 disagreeable it had been to me to remain
 so long aboard a ship where I had no cabin
 when I lost my time or heard he
 was perfectly aware how disagreeable ⁺
 situation it must have been. ^{how much better it would have been if I had} I could not
 lead him to any proposal or to hint any
 thing that I thought still do. - Tried but
 he seemed to fight shy. ^{the 17th morning} Yesterday I went
 on board his boat & proposed to him to
 take me with him as European Physician
 or assistant astronomer - for he do ~~had~~
 expected how much he was inconvenienced
 being no one to note the time &
 gone to Soggon in a private vessel.
 that I might have remained there without ⁺

He refused giving the old story of
fear of displeasing but ~~severely~~ that
~~putting together his sort of definite~~
~~reasons his~~
his & danger if it was known that he had any
concern ~~in~~ ~~with~~ the English
instancing the very letters he was writing
to Carlton saying if the King knew this
day. ~~It~~ ~~is~~ ~~not~~ ~~his~~ ~~business~~ ~~at~~ ~~all~~ ~~but~~ ~~all~~ ~~this~~
seemed to me so vague that putting it
together with his ~~own~~ failure in definite
reasons of his present conduct which was
evident ~~in~~ ~~his~~ ~~conduct~~ ~~with~~ ~~the~~ ~~carpentry~~
to all the other ~~carpenter~~ & to the
concerns from here I could not see
the force of his reasoning. I could not
help thinking he was playing a double
game or rather acting for himself
without any consideration of the Committee
at Carlton. I gave several reasons why he
might well to me evaded his business
