EXPLANATION OF THE CALENDAR.

The *first* column on the left-hand page for each month shows the day of the month; the *second*, the corresponding day of the week; the *third*, the Sundays, Royal Birth-days, Holidays, Terms, &c.; the *fourth*, the Sun's rising and setting; the *fifth*, the Moon's rising or setting. On the right-hand page for each month, the *first* column shows the days of the month; the *second*, the time of high water just above London New Bridge; the *third*, the equation of time. The remainder of the right-hand page exhibits the Moon's changes; and the rising and setting of the Planets on the 1st, 13th, and 25th, days of each month.

In the column of Sun rises and sets, the figures are to be read thus:—Suppose Feb. 1st, 7 27 5; Sun rises 27 m. *after* 7, and sets 27 m. *before* 5; and so of others. The Moon's *setting* is shown from the New to the Full Moon; her rising from the Full Moon to the New.

The column marked Sun fast and slow, shows how much the time on a correct sun-dial is *slower* or *faster* than the time which ought to be given by a watch. When, therefore, the column is headed *slow*, you must *add* so many minutes and seconds; when it is headed *fast*, *subtract* them; to get the true time to which a clock or watch should be set.

GENERAL POST-OFFICE, LONDON.

In addition to the ordinary receiving houses, branch offices are opened at Charing-cross, Vere-street, Oxford-street, Borough of Southwark, and in Lombard-street,—for the receipt of inland, foreign, and ship letters. The branch offices at Charing-cross, Borough of Southwark, and Vere-street, are open for the receipt of letters until a quarter before 7; the office in Lombard-street remains open until 7, after which hour no letters can be received except at the General Post Office in St. Martin's-le-grand.

On the foreign post nights, viz., Tuesday and Friday, foreign letters will be received at Charing-cross, Boro. of Southwark, and Vere-street, until 8 p.m. and in Lombard-street until 11 p.m. Foreign Letters must be paid for, and India Letters put into the East India House.

Newspapers to be forwarded by the post of the same night must be put into the branch offices before 5 p.m. —To go post free to any part of Great Britain, they must be open at each end; any writing or enclosure subjects them to a treble postage. To the East Indies they pay one penny per ounce; and by an Act of a late session of Parliament, they are to be forwarded to the British colonies at a charge of three half-pence each, and are required to be put into a Post Office on the day of publication.

N. B. A Clerk regularly attends at the *Money Order Office*, from 9 till 6, and guarantees the safe conveyance of sums payable at sight by the Dep. Post-Masters in the country, Edinburgh, or Dublin, who also receive money, and give orders at sight on the Office in London.

The 5 Geo. 4. cap. 20. exempts from penalty parties who send letters by any private friend, in his or her way of journey or travel, so as such letter shall be delivered by such friend of the party to whom such letter shall be directed.

Covers containing one or more patterns of cloth, silk, stuff, or goods, not exceeding one ounce in weight, shall be chargeable as a single letter, so as every such packet or cover shall be sent open at the side, and without any letter or writing in, upon, or with, such packet or cover, other than the name of the person sending the same, and the place of his abode, and the prices of the articles affixed thereto or contained therein. Petitions may be sent in the same way.

FRANKS.—No letter directed by or to any Member of Parliament is exempted from postage if it exceed one ounce in weight. No letter directed by any M. P. shall be exempted unless he shall be actually in the post town, or within the limits of its delivery of letters, or within twenty miles of it on the day or the day before it, on which the letter shall be put into the office. No Member is entitled to send free of postage more than ten letters in one day, or to receive more than fifteen.

DUTY OF HARBOUR-MASTERS.

By new regulations, adopted in Oct. 1829, the harbour masters' duty at the port of London is strictly defined. Every day two harbour masters superintend the navigation of the Thames during the whole flood tide, and the first two hours after high water, from London-bridge to Blackwall. A harbour master is to continue on duty at night for the last two hours of the flood and first hour of the ebb tides, and has power to stop vessels, &c. or arrange them in their berths. They are to take no fees whatever. The width of the passage to be kept clear through the upper and lower pools is 300 feet, which is marked by buoys. Every barge, lighter, or other craft, is to pass along the river singly and separately, under a penalty of 40s.
